Kenmore Elite® 24 cu. ft. Counter-Depth French Door Bottom-Mount SMART Refrigerator PRODUCT FACTS

Product Overview:

The Kenmore Elite® Counter-Depth French Door Bottom-Mount SMART Refrigerator connects users to their refrigerator using the Kenmore Smart app* to make worries like over cooling foods or leaving the freezer door open a thing of the past. Delivering modern convenience with intelligent technology to make life easier, homeowners can conveniently access settings from the palm of their hand. In addition, this Kenmore Elite refrigerator also boasts an incredible amount of features including GeniusCool™ technology to create ideal temperature and humidity levels and exclusive SlideAway shelves to maximize storage capacity.

Why do I need a Kenmore Elite Counter-Depth French Door Bottom-Mount SMART Refrigerator?

Peace of mind:

- Users receive notifications on refrigerator settings and statuses including door open count and alert if door(s) are left open, when filters need to be replaced, and if there are errors like power outage, which may allow users to take action to prevent food spoilage.

Control on-the-go:

- Remotely adjust refrigerator and freezer temperatures, icemaker energy saving or vacation mode settings and power and speed of air filtration.

Energy savings:

- Calculate energy consumption to help inform and drive energy saving behavior.

Features:

- **Simple select dispenser** features a sleek, uncluttered look with easy-to-use icons for water, ice and crushed ice, with a spacious design lets you fill large pitchers, coffee pots and water bottles with ease.
- **Accela Ice™** feature allows homeowners to produce ice faster for last-minute gatherings.
- **Recessed LED interior lighting** creates a bright, modern interior, making it easy for users to see what they are looking for.
- **Compact water filter** provides more top shelf storage space.
- **GeniusCool™ technology with linear compressor and dual evaporators** produces separate cooling environments, creating ideal temperatures and humidity levels in both the refrigerator and freezer.
- **Multi air flow technology** provides even cooling by circulating cold air into every nook and cranny – even beverages in the door stay cold.
