Kenmore PRO® 30" Single Cavity Electric & Gas Front Control Freestanding Ranges Product Facts

Product Overview:

The Kenmore PRO® 30" Single Cavity Electric & Gas Front Control Freestanding Ranges boast a professional built-in look without the need to modify kitchen cabinetry. Innovative front control design allows kitchen mavens to operate the oven and range-top without reaching over burners. Exclusive Accela-Heat Technology eliminates need for preheating, while the Turbo Boil® Burner and the Oval Flex Burner offer cooks more control, speed and precision.

Key Features:

- **Exclusive Accela-Heat Technology** is designed to cook foods straight from the refrigerator or freezer without preheating. The oven uses sensors to drive a powerful convection element and accurately control fans to transfer heat to the food, saving time by eliminating preheating altogether
- **Temperature Probe** precisely monitors food temperature so cooks can determine when food is cooked or baked to the exact temperature
- **Porcelain Coated Racks** including a glide out rack, make placing or removing dishes in the oven effortless
- **Bright White Halogen Lighting** for easy view of what's cooking, even when the door is shut
- **Professional Styling** features a chiseled oven window, heavy duty metal handles and knobs with an intuitive, user-friendly electronic readout

Gas Model Features (72583):

- **Exclusive Turbo Boil® Burner** delivers an impressive 18,200 BTUs of heating energy to provide incredibly fast boil time
- **True Convection** includes a powerful convection fan plus a third heating element to deliver even baking and fast preheat
- **15,500 BTUs Oval Flex burner** is ideal for preparing delicate sauces with a low flame on the center burner or use all three burners on long shaped pots or griddles for precision and flexibility
- **Cast Iron Heavy Duty Grates** with long lasting, professional style
- **Variety of Other Burner Options** include a 18,200 BTUs Turbo Boil for impressively fast boil time, a 5,000 BTUs burner for simmering, and a 14,000 BTUs power burner

Electric Model (92583):

- **Exclusive Turbo Boil Flex™ Element** with 3200 watts has the versatility to warm, simmer and boil without moving the pot
- **Dual True Convection** includes convection fans plus a third heating element to deliver even baking and fast preheat
- **Flexible Burner Options** include a 6" 1200 watt simmer element, 7" 1500 watt bridge elements, 12" triple element (800 watts, 1800 watts, 3000 watts), 9" 3200 watt and 110 watt Turbo Boil Flex™, and 6" 100 watt warm zone elements
